Blue-Collar Project

Our Mission is Simple...

To educate and advocate for the next generations into the trades.

EDUCATE

Provide performance-based scholarships to trade schools. By holding recipients accountable, you can ensure your contributions will not go to waste.

ADVOCATE

Demonstrate via community outreach that attending a trade school is as respectable as attending a university. Advocate that a Blue-Collar career can be financially rewarding and provide a great quality of life.

Thank you for helping us change lives.
